Research Interests

Computer Vision · Video Understanding · Machine Learning · Deep Learning · Vision Transformers · Evolutionary Computing · Signal Processing · Free Space Optics Communications

Education

Doctor of Philosophy — Computer Science

2023 – Expected 2027

Kansas State University, Manhattan, KS, USA

PhD Candidate — CGPA: 4.0 / 4.0

- Advisor: Prof. William H. Hsu (collaborators: Prof. Lior Shamir, Dr. Scott Dietrich)
- Research: Computer Vision & Video Understanding; Zero-Shot Event Localization; Action Classification with Vision Transformers

Master of Science — Electrical Engineering

2017 – 2019

King Fahd Univ. of Petroleum & Minerals (KFUPM), Dhahran, Saudi Arabia

CGPA: 3.75 / 4.0 — QS #67

- Thesis: *Precise Position Control of Laser Beam for Free Space Optics Communications*
- Focus: Control Systems, Artificial Intelligence
- Awarded competitive full merit scholarship

Bachelor of Science — Mechatronics & Control Engineering

2009 – 2013

University of Engineering & Technology (UET), Lahore, Pakistan

CGPA: 3.565 / 4.0

- Thesis: *Static Marker-Based Cricket Bowling Analysis*
- Focus: Machine Vision, Embedded Systems, Robotics

Academic & Professional Experience

Instructor of Record — CIS-209: C/Python Programming for Engineers Spring 2026
Department of Computer Science, Kansas State University, Manhattan, KS

- Sole instructor responsible for course design, lectures, assessments, and student evaluation

PhD Candidate / Graduate Teaching & Research Assistant 2023–Fall 2025
Department of Computer Science, Kansas State University, Manhattan, KS

- Developed GRAZE, a zero-shot video event localization framework (CVSports @ CVPR 2026)
- Developed ViT-based risky tackle detection system for American football (ICPR 2026)
- GTA for CIS-209: C/Python Programming for Engineers (2023–Fall 2025); led lab sessions, held office hours

Lecturer 2014–2023
Department of Mechatronics & Control Engineering, UET Lahore, Pakistan

- Designed and delivered 10+ undergraduate courses: Embedded Systems, Digital Logic Design, Signals & Systems, Electric Circuits, Electronic Devices & Circuits, Introduction to Computer Programming, Engineering Dynamics, Manufacturing Processes, Fundamentals of Thermal Sciences
- Director, Simulation Lab; In-Charge, Semester Cell

Teaching Assistant / Lab Instructor 2017–2019
Department of Electrical Engineering, KFUPM, Dhahran, Saudi Arabia

- EE-555: Neural Networks Theory & Applications
- EE-663: Image Processing
- PHYS-101 & PHYS-102: Engineering Physics Laboratory

Project Engineer 2013–2014
RBL PepsiCo, Lahore, Pakistan

- Commissioned a new KRONES PET filling plant; managed system integration and production handover

Founder & CEO 2014 (6 months)
Black Gold Solutions, Plan 9 — Punjab Information Technology Board, Lahore, Pakistan

- Founded technology startup at Pakistan's largest tech incubator (Plan 9, PITB)
- Third Prize, TIE Startup Challenge 2014

Selected Research Projects

- **GRAZE** (2025–26): Zero-shot video event localization via grounded refinement and motion-aware ViT representations; accepted at CVSports @ CVPR 2026
- **Risky Tackle Detection** (2025–26): ViT-based action classification for dangerous tackle detection in American football practice videos; accepted at ICPR 2026
- **Seismic Event Detection**: Deep CNN with face portrait representations for intelligent passive seismic event classification
- **PV Peak Power Prediction**: Genetic Algorithm-based MPPT optimizer for photovoltaic panels

- **Free Space Optics Control** (M.Sc. Thesis): Laser beam position control system for FSO communication links
- **OLYMPUS Reservoir Optimization**: Field development optimization using reservoir simulation; published at EAGE/TNO Workshop 2018
- **Cricket Bowling Analysis** (B.Sc. Thesis): Static marker-based biomechanical analysis of cricket bowling technique
- **Autonomous Robotics**: Maze-solving, line-following, wall-chasing robots; FPGA-based beam balancing; 3× national first prizes

Technical Skills

Languages	Python, MATLAB, C, C++
ML / CV	PyTorch, TensorFlow, OpenCV, Scikit-learn, HuggingFace Transformers
Tools	LabVIEW, Git, Linux, L ^A T _E X
Hardware	Xilinx FPGA, Arduino, NI MyRIO, PCB Design
Specialisms	Vision Transformers (ViTs), Temporal Grounding, Evolutionary Algorithms, Control Systems, Signal Processing

Honors, Awards & Grants

- **Black & Platinum Scholarship**, Computer Vision Foundation (CVPR 2026) — competitive external travel grant
- **Registration Scholarship**, IAPR (ICPR 2026) — awarded in recognition of accepted paper
- Full Merit Scholarship, M.Sc., KFUPM, Saudi Arabia (international competitive award)
- International PhD Scholarship, KFUPM, Saudi Arabia
- First Prize - All-Pakistan ROBOMAZE Competition, IEEE Society GIKI
- First Prize - ROBOTIC RACE, NAGS-11, GCU
- First Prize - Spades IEEE Robotic Race 2011, LUMS
- Third Prize - TIE Startup Challenge 2014
- Dell Laptop Award - Chief Minister Punjab, Pakistan (academic merit)
- 100% Merit Scholarship (Intermediate) – Punjab College of Sciences, Lahore
- Dr. Naseer Scholarship (Matriculation) – Unique Group of Institutions, Lahore

Invited Talks & Seminars

- Seminar: LabVIEW for Engineering Applications, UET Lahore
- Seminar: NI MyRIO Embedded Platform, UET Lahore
- Seminar: PCB Manufacturing, UET Lahore

Professional Memberships & Service

Society Memberships

- Member, Computer Vision Foundation (CVF)
- Member, IEEE Technical Committee on Pattern Analysis and Machine Intelligence (TC-PAMI)
- Member, International Association for Pattern Recognition (IAPR)
- Member, Institute of Electrical and Electronics Engineers (IEEE)

Reviewing

- Reviewer, computer vision and machine learning venues
